TO BE COMPLETED BY PHYSICIAN: MEDICAL CERTIFICATION

BALTIMORE, MARYLAND 21215-0020

DIVISION OF VITAL RECORDS, P.O. BOX 68760,

TO THE HOSPITAL OR ATTENDING PHYSICIAN: The law requires that the death certificate be executed within 24 hours after death. Page 6 may be retained by the hospital or attending physician.

TO THE FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, page 5 should be detached for use as the burial-transit permit. Pages 1, 2, 3 should be filed within 72 hours after death with the State Dept. of Health and Mental Hygiene prior to burial, cremation, or removal.

1. The first part of the report is a general description of the project and its objectives. It includes a brief history of the project and a statement of the problem to be solved. The second part of the report is a description of the methodology used in the study. This includes a description of the data sources, the statistical methods used, and the results of the analysis. The third part of the report is a discussion of the results and their implications. This includes a comparison of the results with previous studies and a discussion of the limitations of the study.

The results of the study show that there is a significant difference between the two groups. The first group has a higher mean score than the second group. This difference is statistically significant at the 0.05 level. The results also show that there is a significant correlation between the two variables. This correlation is positive and statistically significant at the 0.05 level. The results of the study have important implications for the field of research. They suggest that the first group is more effective than the second group. They also suggest that there is a positive relationship between the two variables.

The study was conducted using a random sample of the population. The sample size was 100. The data were collected using a questionnaire. The questionnaire was distributed to the participants and they were asked to fill it out. The data were then analyzed using statistical methods. The results of the analysis are presented in the report.
